- 1) Candidate: Students with EE & CS & Automation & SE major
- 2) Application method: emails.
- 3) Vacancy: 1 opening.
- 4) Start time: Fall 2020.

[About the Ph.D. Positions]:

The successful applicants will have the opportunity to conduct cutting-edge research in the areas of Mobile security, Robot Security, Unmanned Aerial Vehicle Security, Medical Device Security, Biometric Security, and Machine Learning based Security. One of our group has made a lot of amazing hacking demos on our Youtube Channel <https://www.youtube.com/channel/UCGMX3ZbEIV7BZYIX7RtF5tg>. Our group has published papers in top security conferences like USENIX SECURITY Symp. 2018, ACM CCS 2019 etc. The selected applicants will also have the opportunities to collaborate with researchers from other world-class universities such as University of Pennsylvania and University of Michigan, and University of Virginia. Our group is applying for several patents and will open several startup companies. Thus, startup opportunities are available as well. For more information about potential research topics and projects, please email xiali.hei@louisiana.edu.

Please send your detailed CV in PDF format to Dr. Xiali (Sharon) Hei (<http://www.xialihei.com>) (xiali.hei@louisiana.edu). You must provide your GPA and TOEFL scores in your CV.

Minimum requests: GPA >= 3.0, TOEFL >= 79 or IELTS >= 6.5.

All the Ph.D students will get full support (RA/TA, tuition + salary + bonus).
